2008 Financial Crisis & Global Recession

Search GO

PAGES HOME | OVERVIEW | EXECUTIVE SUMMARY | TIMELINE | REFERENCES | ABOUT | RSS Feed | Atom Feed

Overview – In 2008, the United States experienced a serious financial crisis which turned into a major economic recession. Both events also spilled over to the rest of the world. What caused these events, and what can governments do to ameliorate them? Read more…

US FINANCIAL CRISIS

Housing Finance & the Securitization of Mortgages – Fannie Mae and Freddie Mac expanded the depth of mortgage markets by popularizing securitization of mortgages: pooling together mortgages into a lower risk, marketable security. Read more…

The Subprime Mortgage Market – The explosive growth of the subprime mortgage market was due primarily to the ability to securitize and sell off those loans as Collateralized Mortgage Obligations (CMOs). Read more…

The Shadow Banking System- So called "Shadow Banks", financial institutions not subject to bank regulations, aggressively sold subprime CMOs, setting the stage for the financial crisis. Read more…

The Collapse – The financial crisis began when the subprime mortgage market collapsed, causing a collapse in the value of the corresponding CMOs. Read more…

The Credit Crisis – The implosion of the CMO market caused a contraction of lending due to uncertainty about the liabilities borrowers might be holding. Read more…

The Federal Bailout – $700 billion Troubled Assets Relief Program (TARP) created to buy up toxic assets and provide new equity to

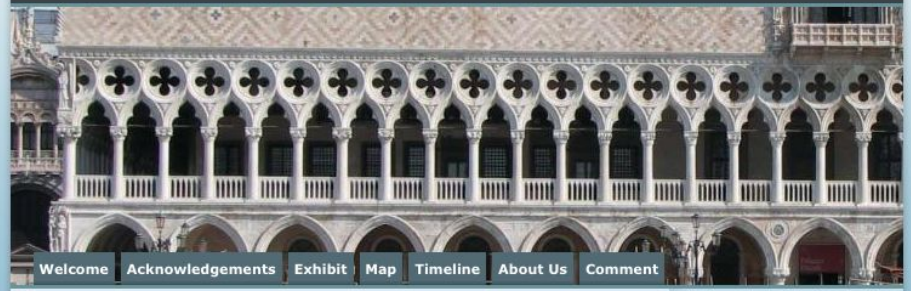
Venice

an online exhibit produced in ARTH 470z at the University of Mary Washington



Welcome | Acknowledgements | Exhibit | Map | Timeline | About Us | Comment

Welcome

Welcome to ARTH 470Z: Venice, a seminar offered during the fall semester of 2008 at the University of Mary Washington in Fredericksburg, Virginia.

This site offers visitors the opportunity to see our students' research on this remarkable city in a format we have referred to as our online exhibit. An actual exhibit on the city of Venice is clearly impossible — one could never transport the Grand Canal or Palazzo Ducale into a museum space. But technology allows us to bring together different aspects of the city, its visual culture, and history in a format where we can discuss the great *palazzi* along the Grand Canal or the magnificent space in front of San Marco.

Photograph by Marjorie Och

Throughout the course of this semester we examined Venetian art and culture from the foundation of the city in the 5th and 6th centuries through today. The city, itself, held our attention for the first several

ANNOUNCEMENTS

"Venice" opened Thursday, December 11, 2008 at 3:30 EST. We hope you enjoy the exhibit.

1 Year with Reclaim

Posted on January 31, 2018 by Meredith Fierro

January 30th, 2017, the day that I started as an intern at Reclaim Hosting. Which, at the time of writing this, it was 1 year ago to the day (plus 1). How crazy is that? A year ago I was a second-semester senior, itching to get out in the real world and be done with

Reclaim Open: Where We're Going

Posted on June 18, 2023 by Meredith Fierro

Whew-- what a week of Reclaim Open! This was Reclaim Hosting's 4th hosted conference and one of the best I've attended to date (and hopefully many more to come!). It was my first in-person conference since the pandemic and it absolutely did not disappoint!

Open Letter: The Blue & Gray Press explains the change

AUGUST 22, 2014 1:31 PM 1 COMMENT

THE BLUE&GRAY
THE UNIVERSITY OF MARY WASHINGTON STUDENT NEWSPAPER PRESS

To the University of Mary Washington and Fredericksburg communities,

On August 18, the University of Mary Washington student newspaper announced a revamping, which included the announcement of a new name, The Blue & Gray Press. Since that date, the announcement has been interpreted in some media circles in a manner that misrepresents our decision and intention.

We, as the editorial board, would like to emphasize that the main reasoning behind changing the name was to better connect the newspaper with the student body. As it stood, the previous name of the publication did not have a direct connection to the school community. Therefore, it did not reflect the university it served in the way college newspapers, and all school organizations, should.

Room and board costs to rise next year

NOVEMBER 19, 2014 7:26 PM NEWS, TOPFEATURE 0

By ALISON THOET

Residence hall room rates and meal plan costs will increase next year by about $150 and $100 respectively at the University of Mary Washington. The Board of Visitors approved the increases at their most recent meeting this past weekend.

SELECTED TOPICS

Tutorial for creating an HTML file:

-Log into your cpanel, click 'subdomains' and create a website called "html.yourname.com."

-Once the site is verified, you can go into your file manager, click 'new file' and label the site as "index.html."

-From there, select the "index.html" file and click 'code editor' to edit your site.

Lauren's HTML Page

#TIC 104

Above is a tutorial for creating an HTML subdomain. It was uploaded from text editor and saved as an HTML document. From there I uploaded the file into my own index.html website. Here's a link to my Internet blog for the class. There you can find a post where I talk about how I created the rest of this site's layout.

About

The Rappahannock Review, a new online literary journal published twice a year (with an occasional bonus issue) by the University of Mary Washington in Fredericksburg, Virginia, is currently accepting submissions for its next general issue. We are interested in previously unpublished Poetry, Fiction, and Nonfiction from both established and emerging writers.

The Rappahannock Review takes its name from the Rappahannock River, which runs from the Blue Ridge Mountains to the Chesapeake Bay. A young George Washington grew up on the banks of the river and famously threw a rock across its expanse. Abraham Lincoln crossed it in 1862 in order to view the occupied city Fredericksburg, which changed hands eight times during the Civil War. About the same time, fugitive slaves risked its waters to flee north to freedom.

Now, the University of Mary Washington, founded in 1908 and named after the mother of the nation's first president, stands on Marye's Heights overlooking the river. From our vantage point we hope once again to make history by publishing the best work from seasoned and emerging writers throughout the nation. Send us your work. Be a part of history.

ABOUT

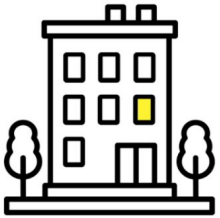
UMW Blogs was a publishing platform

Sites@UMW

A streamlined platform designed to get users building on the web quickly and easily.

Build WordPress sites using a few built-in customization options.



Think of it like an apartment.

It's less responsibility than owning a home, but you are limited in how you can decorate.

Recommended for:

- Beginners
- Course websites and blogs
- Short-term or simple projects
- In-class/internally-facing projects

The University of Mary Washington offers two free website building platforms to all students, faculty, and staff.

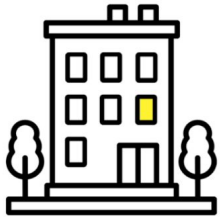
Each platform serves different needs and is appropriate for different projects.

You can have an account on both platforms, so choose the one that works best for your current project!

Sites@UMW

A streamlined platform designed to get users building on the web quickly and easily.

Build WordPress sites using a few built-in customization options.



Think of it like an apartment.

It's less responsibility than owning a home, but you are limited in how you can decorate.

Recommended for:

- Beginners
- Course websites and blogs
- Short-term or simple projects
- In-class/internally-facing projects

Domain of One's Own

A powerful platform suitable for complex projects.

Build fully-customizable sites using WordPress and many other applications, and take them with you after you leave UMW.

Think of it like a plot of land.

You own the property and can build whatever you want, but you are responsible for maintenance and upkeep.

Recommended for:

- Beginners & advanced users
- Personal/professional websites
- Long-term or complex projects
- Externally-facing projects
